

Introduction to the Course

 Welcome 3 min

 Programming Resources 10 min

 Feedback surveys 10 min

Implementing the Caesar Cipher

Breaking the Caesar Cipher

Object Oriented Caesar Cipher

Review

Course Programming Resources

The BlueJ Environment download, documentation, and programming resources are available at:

<http://www.dukelearntoprogram.com/course3/index.php>

Please Note! If you have already downloaded a version of BlueJ that you did not download from DukeLearnToProgram, you will need to uninstall and download this one to get the edu.duke package.

In addition, BlueJ has provided a playlist of videos explaining some key Java terminology and how to use BlueJ: <https://www.youtube.com/playlist?list=PLYPWr4ErjcnzWB95MVvIKArO6PIfv1fHd> .

Download BlueJ

From the above linked DukeLearnToProgram page, click on "Download BlueJ Environment" (<http://www.dukelearntoprogram.com/downloads/bluej.php>). Follow the relevant instructions for your device's operating system (Windows, Mac, or Linux). Note that on a Mac, you may want to move the BlueJ application to your "Applications" folder.

Mark as completed
