▤ Module Feedback Surveys   10 min

Building a Web Page with HTML

Styling a Web Page with CSS

Review

At the end of each module in this course, you will see a link to a short survey where you can share your feedback on the module. These surveys have just 3 questions and take only a minute, but they are very helpful as we make improvements to the course. Please take a minute at the end of each lesson and share your feedback with us. Thank you!
